RallyTime Trailers, Inc. Passes National Safety Compliance Inspection

(Topeka, KS – January 22, 2008) Trailer buyers will be happy to know that RallyTime Trailers, Inc., Warren, OH, had been awarded their compliance certification with NATM *Guidelines* and will be assured that the trailer they purchase meets a high safety standard. RallyTime Trailers, Inc. has passed the National Association of Trailer Manufacturers' (NATM) safety compliance inspection, part of NATM's voluntary Compliance Program. NATM's Compliance Program, including its inspection, is based on the NATM *Guidelines for Recommended Minimum Manufacturing Practices for Light and Medium Duty Trailers*. The *Guidelines* is a compilation of federal safety standards, regulations and industry best practices that govern trailer construction.

RallyTime Trailers, Inc. started building trailers in January 2007 and employs 8 people. They manufacture specialty enclosed motorcycle trailers, and have been a National Association of Trailer Manufacturers member since 2005.

NATM's Compliance Program, including the on-site inspection, is available to all NATM trailer manufacturing members on a voluntary basis. Once the manufacturer's manufacturing process passes the 80-point inspection checklist based on the *Guidelines*, the company is now NATM certified and eligible to purchase NATM's red, white, and blue Compliance Decals for application to its compliant trailers. The Decal states that the trailer was "*Manufactured in Compliance with NATM Guidelines*."

The National Association of Trailer Manufacturers was founded in 1987 and represents manufacturers that produce light- and medium-duty trailers. NATM members also include suppliers to the industry. Organized to promote universal recognition of safety and quality in trailer manufacturing, to both the trailer industry and to the public, NATM works to improve the trailer industry through the promotion of compliance with its *Guidelines*. The Association currently has more than 1000 member companies across the United States, Canada, Mexico, and other foreign countries.
